Former Carpinterians Judi and Shari Zucker published "The Double Energy Diet" to help others access the health and vitality dialed in by the dynamic twins.

### Local twins author health book

Judi and Shari Zucker are releasing their newest book, "The Double Energy Diet," to provide readers with tools to improve their lives through health and nutrition. The Zuckers, who are twin sisters, said they were frustrated with fad diets and felt that common sense food and lifestyle choices were the best strategies to achieve health and high energy.

Both sisters earned degrees in health and nutrition at UCSB and since have focused on living a healthy lifestyle, while encouraging the same for their children. Their book features a wide variety of plant-based recipes as well as chapters on exercise, raising healthy kids and eating patterns. According to Judi, the book is locally available at Head to Toe Salon, 887 Linden Ave., but is "selling out all over town."
